Sit back, relax, and enjoy the ambience of a warm home using this high-powered 2000W convection heater. Battling the winter chill is made easier and quicker

Featuring three heat settings of 750W, 1250W and 2000W, its ultra-powered operation will quickly and efficiently heat-up rooms by using the push buttons located on the side of the heater. Complete with an adjustable thermostat with a maximum temperature of 110°C. With built-in overheat

protection, the unit will automatically turn off once it becomes too hot. Lightweight and portable, you can transport the heater to where you need.

- Featuring three heat settings: 750W, 1250W and 2000W, this ultra-powered convection heater will deliver high performance heating solution that will see you through the winter months
- Energy efficient performance, with a cost of £1.02 for one hours use
- With an adjustable thermostat, you are in complete control of the heater's temperature
- Overheat protection ensures the heater automatically turns off once it becomes too hot. Keeping your mind at ease and is perfectly safe for use around children and pets
- Operate the unit simply using the push buttons and manual dial

Choose your Ideal Temperature

With three heat settings of 750W, 1250W and 2000W, as well as a fully adjustable thermostat, this heater is ideal for heating up your home during cold spells. The rotary dial and flick switch make it simple to tailor the temperature to your particular requirements, while a power light lets you see when the heater is in operation.

Freestanding Design

Ideal for any small to medium space, the freestanding design makes a great heating solution for any home or office. It is also equipped with carry handles for easy portability from room to room.

Safety Features

This convection heater features a thermal cut-off, ensuring that in the unlikely event that the heater should fall over; the system will automatically cut off the power supply for peace of mind when in use.

The image is a composite of two parts. On the left, a black rectangular background displays the 'warmlite' brand logo in white and orange text, with a small flame icon above the 'i'. Below the logo is a short paragraph of white text: 'Warmlite offer a wide range of stylish, affordable and efficient home heating solutions designed for your specific needs. From practical portable fan heaters to stunning wall mounted fires, we have created a full range of heating solutions with you in mind.' On the right, a modern electric fireplace is shown in a living room setting. The fireplace has a dark grey frame and a black base with a small drawer. It is set into a white rectangular housing. To the left of the fireplace is a tall, slender vase with a textured, organic design. To the right, a portion of a light-colored sofa is visible. Two lit candles are on the wall above the fireplace. The floor is dark wood.
