

ATP Buffalo® Board

FSC Certified, Slip-Resistant Birch Plywood

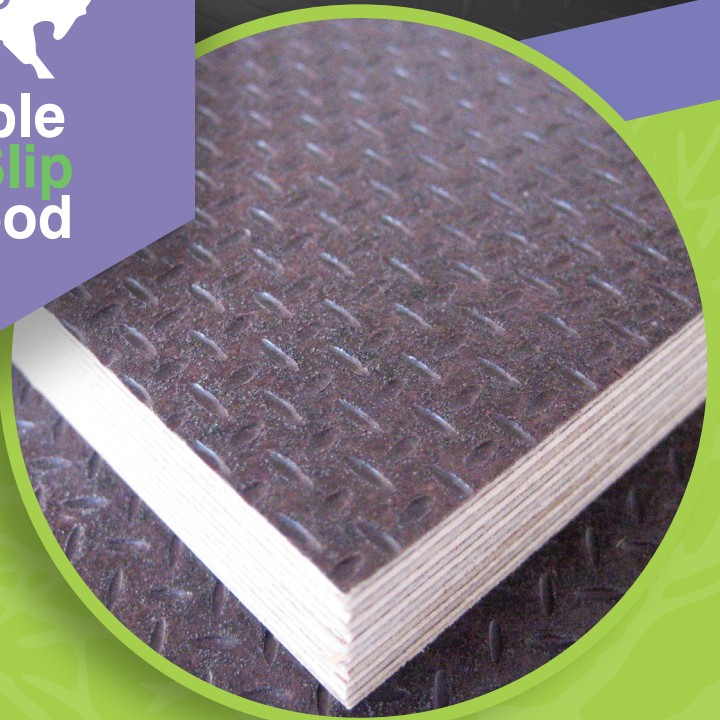

Buffalo Board is ATP's own brand of anti-slip FSC Certified Birch plywood.

Part of the James Latham Group

**Durable
Anti-Slip
Plywood**

Buffalo® Board is a tough, anti-slip plywood, suitable for a wide range of applications.

This phenolic birch plywood is easily worked, can be CNC machined, and with good chemical and weather resistance, Buffalo® Board is the ideal choice for commercial vehicle and van flooring, trailers, staging, scaffolding, boat decking, working platforms, ramps, walkways, steps, play and sports equipment.

- ◻ Easily worked
- ◻ CNC machined
- ◻ Tough and durable
- ◻ Versatile material

Specifications and Uses

Product Information

Face	220g/m ² Dark brown large wire mesh pattern phenolic film face
Reverse	Smooth dark brown phenolic film with 'Buffalo logo'
Core	Birch Throughout Plywood Core EN636-2, EN13986, EN314-2: Class 3 Phenolic Resin Bonded. Edges painted.
Wear Resistance	(Taber Value) 600 to 900 revs
Rolling Test	EN 1818 - 6000 revs
Slip Resistance	DIN 51130 - R12
Thickness	6.5 / 9 / 12 / 15 / 18 / 21 / 24 / 27 / 30 and 35mm
Sizes	1220 x 2440 / 2500, 1250 x 2500, 1525 x 3050mm
