

Stokoderm® PROTECT

Universal Skin Protect Cream

PRODUCT DESCRIPTION

Universal perfume-free and dye-free skin protect cream designed for professional use to help protect the skin against light to moderate exposure to water and non-water based workplace contaminants.

WHERE TO USE

Suitable for most workplaces such as general industry and food facilities.

RECOMMENDED SOILINGS

Oil-based and water-based substances: oil, grease, lubricants and detergents.

INSTRUCTIONS FOR USE

- Apply 1ml to clean and dry skin before starting each work period and after washing hands.
- Rub on all areas of the hands, including between the fingers and around the fingernails.

	DESCRIPTION	BENEFITS
FEATURES	Proven universal protection	Suitable for a wide range of working environments with moderate exposure to varying types of water and oil based substances.
	Quick drying	Non-greasy cream absorbs quickly to leave a pleasant, non-tacky protective film on the skin to encourage regular use and not affect dexterity with hand held tools.
	Skin Hypoallergenic	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
INGREDIENTS	Contains Xanthan Gum	Used to stabilise the protective film provided by the product when applied to the skin.
	Contains Kaolin	A mineral which sits in the skin pores, to help prevent them from becoming blocked by oil-based substances.
	Contains Glycerin	A skin moisturiser to help prevent drying and leave the skin feeling smooth after use.
	Perfume-free and Dye-free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	Silicone-free	Reduces the risk of Silicone related compatibility issues, if in contact with surfaces prior to the application of paint or surface coatings
COMPATIBILITY	Suitable for food facilities	The product has been independently evaluated and proven to not have the potential to taint food. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.
	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.

Stokoderm® PROTECT

Universal Skin Protect Cream

STATUTORY REGULATIONS

This product is a cosmetic product regulated by and complying in GB with the GB Cosmetics regulation (Schedule 34 of the Product Safety and Metrology etc. (Amendment etc.) (EU Exit) Regulation 2019 (as amended) & in ROI/NI with EC No 1223/2009 (as amended) on Cosmetic Products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-gb/safety-data-sheets>

SHELF LIFE

This product has a shelf life of 30 months from the date of manufacture when stored unopened at room temperature.

SUITABLE FOR USE IN FOOD HANDLING AREAS

1. When used as instructed, Stokoderm® Protect does not influence the quality of foodstuffs. The product has been independently tested according to Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007 and has been proven to not have the potential to taint food, thereby supporting and meeting HACCP standards for impact on the smell and taste of foodstuffs.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

PRODUCT SAFETY ASSURANCE

Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands, face and neck of adults aged 16 years and above when used as directed, meeting all relevant regulatory requirements.

COMPATIBILITY TESTS

Glove Compatibility

In independent testing, the use of Stokoderm® PROTECT cream in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN EN ISO/IEC 17025, the use of Stokoderm® PROTECT cream in rubber production process does not influence the cohesive strength of rubber.

EFFICACY TESTS

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT). Allergy sufferers should always refer to the ingredient list before using the product.

Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking allergic skin response and thus meets the requirements for being described as 'Hypoallergenic' (Delphic Solutions Ltd, UK). Allergy sufferers should always refer to the ingredient list before using the product.

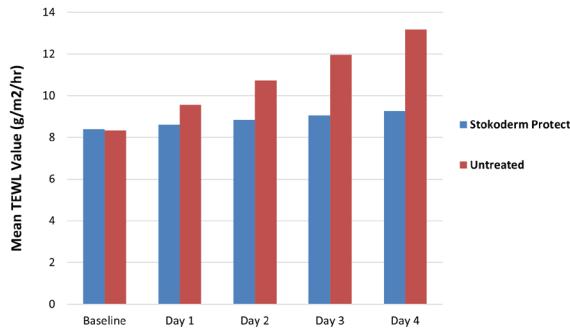

Barrier Property Test

Repeated Occlusive Irritation Patch Testing using 25 healthy panellists was conducted using one water soluble substance (Sodium Lauryl Sulphate) and one non-water based substance (Ethyl Acetate/Undecylenic Acid, 1:1). Each substance was applied at one time per day for 30 minutes over 4 days, alternating the water-based substance in the morning and non-water based in the afternoon.

Results show Stokoderm® PROTECT cream significantly reduces Trans Epidermal Water Loss (TEWL) compared to unprotected skin.

Barrier Property Test

Repeated 4 Day Occluded Irritation Test

NB: Where possible skin exposure to potentially harmful substances and environments should be avoided through the implementation of safe working practices and the use of appropriate Personal Protective Equipment. Where skin exposure cannot be avoided, it is recommended to use an appropriate skin protect cream as part of a complete skin care programme to reduce the risk of occupational skin disease.
