

Angleboard Specification Sheet

Description

Multiple plies of recycled paper, laminated together and formed into a rigid right angle. Used to brace and support, prevent crushing from shrink wrap and protect edges of product from damage caused by storage, transit or strapping. Warehouse storage capacity can be greatly enhanced and transport costs reduced with the ability to stack pallets.

Composition

100% Recycled paper, fully wrapped
Environmentally friendly PVA glue
Fully Recyclable

Sizes (mm)

Length (D): 50 – 6000mm

A	B	C
35	35	2/3
50	50	2/3/4/5
60	60	2/3/4/5/6
75	75	2/3/4/5/6

Note: 0.5mm increments on thickness and offset legs available on some sizes

Tolerances

Legs: +/- 5mm*
Thickness: +/- 0.4mm*
Length: +/- 5mm
Angle: +/- 10°
(*Average of 2 legs)

Key:

A = leg
B = leg
C = thickness
D = length

Available Options

Standard Brown or White outer wrap

One colour printing to promote your brand or provide information

Sawn to short lengths for strapping protection

Notched on one leg to protect the edge of a curved object

Self adhesive tape (One or two legs)

Long lengths up to 6000mm ideal to protect items such as worktops and steel sheets.
