

Faithfull Power Plus (FPPSLFESTL22)

Festoon Lights 10 LED Bulbs 110V 22m

This Faithfull Festoon Light on a 22 metre cable is supplied with 10 x bulbs. The compact LED bulbs are spaced 2m apart, with each bulb providing a bright white 400 lumen light output. Screw mounting holes allow the bulbs to be securely fixed. Up to 8 sets of these festoon lights can be daisy chained together, maximum 176M with 80 LED bulbs. The yellow cable offers maximum visibility on the worksite. These festoon lights will provide a very effective solution to illuminating a large area; there will be instant light in multiple locations without shadows which can be caused by tripod lighting. Faithfull Festoon Lights with a 16 Amp 110 Volt plug. Specifications: Watts 50W, Voltage 110V, Length 22m, Type LED, Number of Bulbs 10, Bulb spacing 2m, Lumens per Bulb 400, Light colour Cool White 6500k, IP rating IP44, Max Daisy Chain x 8, total length 176M with 80 LED bulbs.
